github.com/aaldiiee

As a Frontend Developer, I have a passion for developing user-friendly web applications that provide added value to users. I have experience in using various programming languages such as React.js, Next.js, Tailwind CSS, Laravel, etc, to build responsive websites and web applications.

EDUCATION

Pamulang University

B.S in Informatics Engineering

March 2022 - 2025

Tangerang, Indonesia

Binar Academy Bootcamp

Fullstack Web Development

Jan 2023 - May 2023

Tangerang, Indonesia

- Successfully applied the learned concepts and technologies to build web applications. This demonstrates the practical application of your newly acquired skills, translating theoretical knowledge into tangible results.
- Developed and implemented a comprehensive training program in web application development, utilizing best practices for HTML, CSS, JavaScript, Node.js, Express, React, Redux, and other technologies; increased team efficiency by 30% and reduced project completion time by 25%.
- Researched and analyzed emerging trends and advancements in web application development, including HTML, CSS, JavaScript, Node.js, Express, React, Redux, and related technologies; applying gained knowledge to optimize functionality and improve user experience, increasing site traffic by 25%.

PROJECTS EXPERIENCE

CarLoka - Car Rental Platform

Full-Stack Developer

- Build a car rentals web app using React within 1 month.
- Developed a responsive car rental platform with seamless user experience, utilizing React and Tailwind CSS for dynamic and visually appealing UI.
- Implemented state management using Redux, ensuring efficient handling of user interactions and data flow across components.
- Designed and integrated a robust backend API with Express.js to manage bookings, car inventories, and user accounts securely.
- Utilized MySQL for database management, ensuring data consistency and optimized query performance.
- Ensured code quality and project scalability with modular architecture and reusable components.

Atria - Ecommerce

Frontend Developer

- Built a responsive and user-friendly interface using Next.js and Tailwind CSS, ensuring seamless user experiences across all devices.
- Connected the frontend with backend services via RESTful APIs, enabling real-time data rendering for products, promotions, and other content.
- Implemented modern web practices such as lazy loading, code splitting, and asset optimization to enhance site speed and performance.

SKILLS

- Proficient: HTML, CSS, JavaScript, jQuery, ajax, Next Js, React Js, TypeScript, Tailwind CSS, Bootstrap, Zustand
- Moderate: Laravel, RESTful APIs, Express Js, Redux, MySQL
- Beginner: Node Js, React Native, PostgreSQL

WORK EXPERIENCES

Frontend Developer

PT. Ifabula Digital Kreasi

Jul 2023 – Jan 2025

DKI Jakarta, Indonesia

- Collaboration with the Backend team to ensure seamless API integration.
- Transforming UI/UX design and design prototypes into Laravel Blade templates, Bootstrap, and JavaScript/jQuery code that is responsive.
- Build and implemented application logic to enhance user experience
- Build a mobile application using React Native.

PPIC Intern

PT. Panata Jaya Mandiri (ADR GROUP)

Nov 2021 – Oct 2022

Tangerang, Indonesia

- Improve inventory accuracy by 95% through regular monitoring of raw material and finished goods stock, reducing the chances of stockouts or overstocking.
- Reduce excess inventory levels by 20% through accurate tracking of open purchase orders, preventing overstocking and optimizing working capital utilization.
- Improve production efficiency by reducing lead time by 25% through timely processing of open purchase orders, enabling smoother production scheduling and minimizing idle time.
