As a Frontend Developer, I have a passion for developing user-friendly web applications that provide added value to users. I have experience in using various programming languages such as React.js, Next.js, Tailwind CSS, Laravel, etc, to build responsive websites and web applications.

EDUCATION

Pamulang University   March 2022 - 2025
B.S in Informatics Engineering   Tangerang, Indonesia

Binar Academy Bootcamp   Jan 2023 - May 2023
Fullstack Web Development   Tangerang, Indonesia

- Successfully applied the learned concepts and technologies to build web applications. This demonstrates the practical application of your newly acquired skills, translating theoretical knowledge into tangible results.
- Developed and implemented a comprehensive training program in web application development, utilizing best practices for HTML, CSS, JavaScript, Node.js, Express, React, Redux, and other technologies; increased team efficiency by 30% and reduced project completion time by 25%.
- Researched and analyzed emerging trends and advancements in web application development, including HTML, CSS, JavaScript, Node.js, Express, React, Redux, and related technologies; applying gained knowledge to optimize functionality and improve user experience, increasing site traffic by 25%.

PROJECTS EXPERIENCE

Binar Car Rentals
Full-Stack Developer
- Build a car rentals web app using React within 2 weeks.
- Designed 3 attractive UI pages: homepage, list items, and saving board using HTML, CSS, JavaScript, Bootstrap, Node.js, and Express.js.
- Enhanced Performance:
  - Reduced page load time by 20%.
  - Improved rendering speed by 15%.

Atria Ecommerce (PT. CATUR SENTOSA BERHASIL)
Frontend Developer
- Built a responsive and user-friendly interface using Next.js and Tailwind CSS, ensuring seamless user experiences across all devices.
- Connected the frontend with backend services via RESTful APIs, enabling real-time data rendering for products, promotions, and other content.
- Implemented modern web practices such as lazy loading, code splitting, and asset optimization to enhance site speed and performance.

Document Management Dashboard (PT. WANDA INDONESIA TEKNOLOGI)
Web Developer
- Designed and implemented an intuitive and responsive Document Management Dashboard using Laravel, Bootstrap, and jQuery, catering to user needs for managing and organizing documents efficiently.
- Designed and optimized database schemas for storing and retrieving documents and metadata efficiently using Laravel's Eloquent ORM.
- Implemented robust authentication and role-based access control to ensure secure and authorized document handling.

SKILLS

- Proficient: HTML, CSS, JavaScript, jQuery, ajax, Next Js, Tailwind CSS, Bootstrap
- Moderate: React Js, Laravel, RESTful APIs
- Beginner: Node Js, Express Js, React Native

WORK EXPERIENCES

Frontend Developer   Jul 2023 – Nov 2024
PT. Ifabula Digital Kreasi   DKI Jakarta, Indonesia

- Collaboration with the Backend team to ensure seamless API integration.
- Transforming UI/UX design and design prototypes into Laravel Blade templates, Bootstrap, and JavaScript/jQuery code that is responsive.
- Build and implemented application logic to enhance user experience
- Build a mobile application using React Native .

PPIC Intern   Nov 2021 – Oct 2022
PT. Panata Jaya Mandiri (ADR GROUP)   Tangerang, Indonesia

- Improve inventory accuracy by 95% through regular monitoring of raw material and finished goods stock, reducing the chances of stockouts or overstocking.
- Reduce excess inventory levels by 20% through accurate tracking of open purchase orders, preventing overstocking and optimizing working capital utilization.
- Improve production efficiency by reducing lead time by 25% through timely processing of open purchase orders, enabling smoother production scheduling and minimizing idle time.
